About Suzlon Energy Ltd.

Suzlon Energy Ltd. (Suzlon) is the world's largest wind turbine generator (WTG) manufacturer in terms of market capitalization. The company has been ranked the 5th largest in the world, and the largest in India and Asia in terms of market share in 2005. In India, the company has been the market leader for eight years consecutively, installing 53% of the capacity added in 2005.

Suzlon offers customers total wind power solutions including consultancy, manufacturing, operations & maintenance services. Suzlon is a multinational company with offices, R&D and technology centers, manufacturing facilities and service support centers spread across the globe.

With the increasing demand and the advantage of being an end-to-end solution provider in its field of activity, Suzlon plans to increase its presence within India, and around the world. It already has a presence in over 40 locations around the world – including Australia, China, EU, India, New Zealand, South Korea and the US.

Suzlon has design and R&D teams and facilities in Germany, India and The Netherlands. The international business of Suzlon is managed out of Aarhus, Denmark where Suzlon has established a wholly owned subsidiary, Suzlon Energy A/s, which in turn has country headquarters in Beijing, Chicago and Melbourne for China, United States and Australia respectively.

Suzlon's quality systems have been certified by Det Norske Veritas (DNV), one of the leading global registrars of quality systems, as being in compliance with the requirements of ISO 9001:2000.
