

For Immediate Release | 28th January 2026

Suzlon Secures its First 248.5 MW Wind Order from ArcelorMittal

With this fourth wind order for decarbonizing of steel production; Suzlon is now powering about 1,156 MW for green steel in India

Key Highlights of the Order

**First order
from
ArcelorMittal
Group**

**Fourth order
for green steel
in a single
year**

**Project to be
executed
in Bachau,
Gujarat**

**Supplying 79
S144 WTGs with
a rated capacity of
3.15 MW**

Pune, India: Suzlon Group, India's no. 1 wind solutions provider, today announced that it has secured a 248.85 MW wind energy order from ArcelorMittal Group through its Renewable Energy entity in India. This

order is part of the 550 MW hybrid project in Gujarat where the wind order has been awarded to Suzlon for captive use for ArcelorMittal Nippon steel facilities in India. Suzlon continues to be the largest wind player in Gujarat with 4.5 GW of installed capacity base and growing.

This marks Suzlon's fourth major wind order for decarbonizing steel production, taking its contribution to approximately 1,156 MW of green steel capacity in India. Over the past 12 months, Suzlon has partnered with leading steelmakers to accelerate the transition to low-carbon steel manufacturing.

Girish Tanti, Vice Chairman, Suzlon Group, added, *"We are proud to partner with ArcelorMittal, one of the world's most respected steel producers. Steel is the backbone of India's infrastructure, yet it remains one of the most energy-intensive industries. As the sector accelerates its journey toward decarbonization, renewable energy has become a competitive and viable contributor. At Suzlon, we are committed to making this transition a reality through strong partnerships and industry coalitions like the Indian Steel Green Council."*

JP Chalasani, Chief Executive Officer, Suzlon Group, stated, *"We welcome Arcelor Mittal as a valued partner in India's journey towards a low carbon future. This project reflects Suzlon's strategic focus on the EPC segment, where we aim to gradually increase its share to 50% of our overall order book. We expect EPC to drive an increasing share of our upcoming order wins."*

Amit Harlalka, Director, ArcelorMittal Sustainable Solutions India, said, *"We are committed to supporting energy transition and securing supply of clean energy for our operations—a goal that demands trusted partners. With a 30-year track record and demonstrated reliability in wind energy, Suzlon stands out as our preferred partner. This partnership reflects our shared vision to accelerate green steel production and build a sustainable future for India."*

About The Suzlon Group

The Suzlon Group is a leading global renewable energy solutions provider, with 21+ GW* of wind energy capacity installed across 17 countries. Headquartered at Suzlon One Earth in Pune, India, the Group includes Suzlon Energy Limited (NSE:SUZLON, BSE: 532667) and its subsidiaries. A vertically integrated organisation, Suzlon has in-house R&D centres in Germany, the Netherlands, Denmark, and India, and world-class manufacturing facilities across India. With 30 years of operational excellence and a diverse workforce of 8,300+ employees, Suzlon is India's No. 1 Renewable Energy Solutions company, having an installed base of 15.4 GW of assets and an additional ~6 GW installed outside India. Its portfolio includes the advanced 2.x MW and 3.x MW series of wind turbines.

**Global installations of Suzlon-manufactured wind turbine generators. Data as of 30th September 2025*
