Dear Sirs,

Sub.: Media Statement.

This is in reference to reports in a section of the media regarding blades supplied to REpower by Suzlon in China. In the context, enclosed please find copy of the media statement, which is self-explanatory.

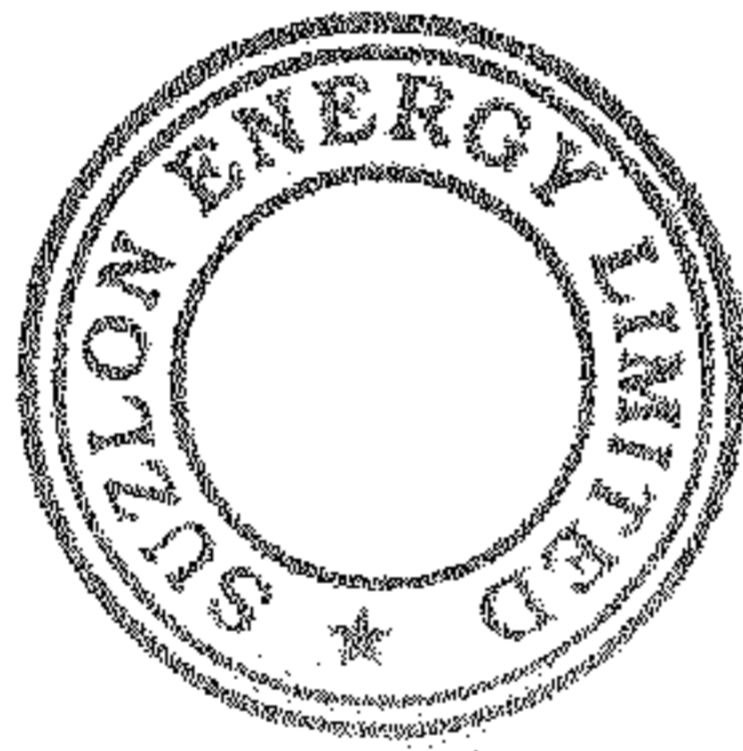

This is for your information as also for the information of your members and the public at large.

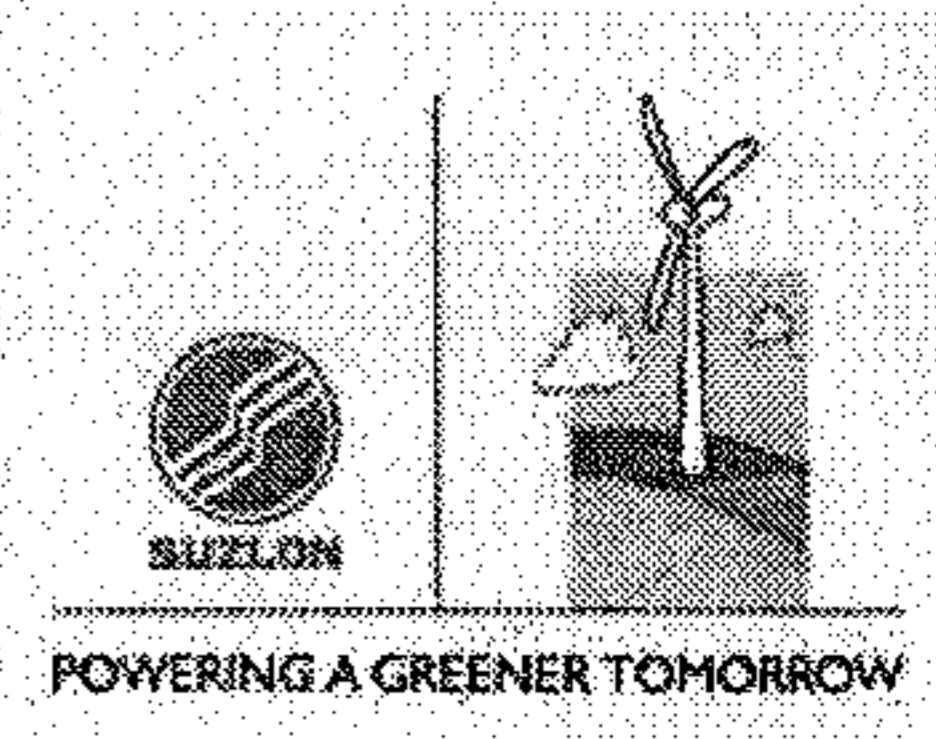

Thanking you,

Yours faithfully,
For Suzlon Energy Limited

H-A Kanuga

Hemal A.Kanuga,
Company Secretary.

Media Statement

Dt. 16th April, 2009

This is in reference to reports in a section of the media regarding blades supplied to REpower by Suzlon in China.

REpower asked and contracted with Suzlon to have the company manufacture wind turbines blades. The blade design was REpower's, and the manufacturing process required Suzlon to adjust the specifications and processes of existing manufacturing facility in Tianjin, China, to meet the REpower design specifications. The new process also involved training of the existing workers.

Suzlon has not delivered any blades to REpower. Those blades are still in the prototype phase of the manufacturing process, which includes rigorous testing of the blades' ability to perform reliably and safely. Suzlon will only commence serial manufacturing and delivery of blades after it completes this prototype phase and can guarantee the quality of the product. And the company is working vigorously to complete this process and commence full-scale production.

Suzlon is focused only on completing the project while ensuring adherence to high quality standards which is delaying the delivery. If financial liabilities exist related to the delivery issues that REpower may intend to seek Suzlon's assistance with, that matter will be a subject for discussion between both parties. However, any such liabilities if they occur would be non-material and insignificant. Additionally, it should be noted that Suzlon owns 74% of REpower and this is a transaction between related parties.

About Suzlon Energy Limited

Suzlon ranked as the world's fifth leading wind turbine manufacturer in 2008. The company has ranked as the leading manufacturer in the Indian market for nine consecutive years, maintaining over 50% market share. Suzlon has its corporate offices in Pune, India and company's global spread reflects in its projects and markets portfolio - extending across Asia, Australia, Europe and North and South America. Suzlon is a highly vertically integrated wind turbine manufacturer with manufacturing capability along the full value chain - from components to complete wind turbine systems. The company currently has a combined manufacturing base of 4,200 MW of annual capacity. Please visit www.suzlon.com for more information.
