This is for your information as also for the information of your members and the public at large.

Thanking you,

Yours faithfully,

For Suzlon Energy Limited

H. A. Kanuga

Hemal A.Kanuga,
Company Secretary.

Encl.: As above.

27th April 2012

Suzlon Group wins 50 MW order from Eoxis Group

- First wind power project in India for the UK-based Eoxis group, a global renewable energy IPP company backed by Platina Energy Partners
- Project will feature S97 turbines; to be commissioned by January, 2013

Pune: Suzlon Group, the world's fifth leading* and India's largest wind turbine manufacturer has signed a contract for a 50.4 MW wind power project with the Indian subsidiary of Eoxis which is backed by Platina Energy Partners. The order comprises 24 units of Suzlon's latest S97 – 2.1 MW wind turbines, featuring the Doubly-Fed Induction Generator (DFIG) technology. The project will be set up in the state of Rajasthan and is scheduled to be commissioned by January, 2013. Suzlon will execute the contract under its end-to-end business model.

Eoxis is an investee company of Platina Energy Partners, an independent European investment firm focusing on renewable energy. Eoxis has invested in solar projects in Europe, and also recently completed its first 15 MW solar project in Gujarat. This 50.4 MW order is the Group's first investment in the Indian wind energy sector.

Ms. Laurence Mulliez, CEO, Eoxis said, "Eoxis is a serious player in the renewable space with ambitious long-term plans to be a leading global renewable energy IPP. We have a team of experts who have had significant exposure to this sector and project financing. We have a very strategic focus on the wind sector and, in particular, on India which is amongst the top five wind energy markets worldwide.

"After spending two years considering the available options, we selected Suzlon, the market leader in India. We trust Suzlon's proven expertise, capabilities and the latest S9X turbine technology to deliver expected life cycle value contribution to this project." she added.

Speaking on the order, **Mr. Tulsi Tanti, Chairman, Suzlon Group**, said: "We are happy to partner with Eoxis in their maiden wind energy project in India, and look forward to building a strong long-term relationship.

"The growth of the IPP sector represents the next stage of the evolution for the Indian wind market – and this order underscores our strong competitive position in this rapidly growing segment."

About Eoxis Group:

Eoxis is an independent power producer focused on renewable energies with a global mandate. It develops, invests in and operates high quality renewable energy assets in several countries around the world with a technology focus on solar and wind energy, as well as hydro and biomass. Eoxis currently owns and operates about 40 MW of solar PV facilities in Europe and 15 MW in India. It has a long-term horizon and operates with a team of highly experienced investment, operational and technical professionals. Eoxis is backed by Platina Energy Partners, an independent European investment firm focused on renewable energy with a significant track record in wind and solar generation. About Suzlon Group:

The Suzlon Group was ranked as the world's fifth largest* wind turbine supplier, in terms of cumulative installed capacity, at the end of 2010. The company's global spread extends across Asia, Australia, Europe, Africa and North and South America with over 19,000 MW of wind energy capacity installed in 28 countries, operations across 32 countries and a workforce of over 13,000. The Group offers one of the most comprehensive product portfolios – ranging from sub-megawatt on-shore turbines at 600 Kilowatts (KW), to the world's largest commercial 6.15 MW offshore turbine – with a vertically integrated, low-cost, manufacturing base. The Group – headquartered at Suzlon One Earth in Pune, India – comprises Suzlon Energy Limited and its subsidiaries, including REpower Systems SE. Visit us at www.suzlon.com
