Suzlon Group wins 370 MW of orders globally in the Q4 OF FY 13-14

Pune/Hamburg: Suzlon Group, the world's fifth largest wind turbine manufacturer has signed contracts for 370 MW during the Q4 of FY 2013-14, adding to an already strong pipeline of onshore & off shore orders globally in 2014. The company will be supplying these turbines for new wind farms in countries such as Germany, UK, India, Belgium and other European countries.

Suzlon Group over the years has an installed capacity of 24200 MW globally across 33 countries. With an impressive product portfolios and best in class service, our order Suzlon order books stands at USD \$ 7.7 billion. Suzlon Group has successfully retained its 5th place among global wind turbine makers in 2013, according to MAKE Consulting

Andreas Nauen, CEO – Senvion SE, commented: “We have a suitable turbine for each individual site in our product portfolio. That's why we are optimistic to extend our market share in Senvion's key markets.”

Mr Kirti Vagadia Group Head – Corporate Finance.– Suzlon Group said: “The orders represent not only the rapid globalization of our business, but also the value proposition Suzlon has to offer to its clients..

In its annual Global Wind Turbine OEM Market Share report, MAKE said Suzlon had a global market share of 6.3%, as measured by newly installed generating capacity.

Under the strong leadership of Mr.Tulsi Tanti and his astute ability to gauge the tremendous potential and advantages of the industry, Suzlon continues to be a formidable Global Wind Energy player today.

About Senvion:

Senvion SE, a wholly owned subsidiary of the Suzlon Group, is one of the world's leading manufacturers of onshore and offshore wind turbines. The international mechanical engineering company develops, produces and markets wind turbines for almost any location – with rated outputs of 1.8 MW to 6.15 MW and rotor diameters of 82 metres to 152 metres. Furthermore, the company offers its customers project specific solutions in the areas of turnkey, service and maintenance, transport and installation, as well as foundation planning and construction. The profitable and reliable systems are designed at the Senvion TechCenter in Osterrönhof and manufactured at its plants in Husum (North Friesland), Trampe (Brandenburg) and Bremerhaven, as well as Portugal, India and China. With more than 3,300 employees worldwide, the company - headquartered in Hamburg - makes use of the experience gained from the manufacture and installation of more than 5,000 wind turbines around the world. Senvion is represented by distribution partners, subsidiaries and participations in European markets such as France, Belgium, the UK, Italy, Portugal, Sweden, and Poland as well as on a global level in the USA, China, Australia and Canada.
