

# Suzlon's first wind farm site completes 20 years

Suzlon's first wind farm site has completed 20 years of operations. Suzlon had installed their first wind turbine generators (WTG) at Dhank, Gujarat in 1996. Built initially for Indian Petrochemical Corporation, now Reliance Industries, the site has a total of 14 WTGs commissioned and erected for IPCL and other SMEs. Ten of the WTGs have completed 20 years and the remaining four are scheduled to do so in December '16. The first 10 units consist of two units of 270kw and eight units of 350kw.
