**Pune:** Suzlon, renewable energy solutions providers with an international presence across 19 countries in Asia, Australia, Europe, Africa and North and South America, has been recognised as the number one green energy company in India and ranked 67th globally.

Suzlon Group announced that it is ranked 67th in the inaugural Carbon Clean 200 (Clean 200) list of clean energy companies worldwide ranked by their green energy revenues. The Clean 200, the list of biggest 200 public companies by green energy revenues, is published by Canada-based research house 'Corporate Knights' and a non-profit organisation 'As You Sow'.

Speaking on the occasion, JP Chalasani, Group CEO, Suzlon Group, said, "We are proud to be ranked amongst the leading Indian companies in the Clean 200 list. It is a testimony of

## PROUD FEATHER IN THE CAP

- Suzlon ranked 67th in the inaugural Carbon Clean 200 list of clean energy companies worldwide and was ranked first in India.

our efforts towards powering a greener tomorrow and creating a low carbon economy. Our vision is aligned with the government commitment at COP21 to cut the rate of carbon emissions relative to GDP by 33 to 35 per cent by 2030 and achieving 40 per cent renewables by 2030. We are committed to playing a pivotal role in India's transition from a fossil fuel dominated energy architecture to a sustainable, affordable and reliable energy mix."

Suzlon's global wind installations of ~15.5 GW help in reducing 20.50 million tonnes of CO2 emissions annually.

The largest publicly listed companies worldwide are ranked by their total clean energy revenues as rated by Bloomberg New Energy Finance (BNEF). To be eligible, a company must have a market capitalisation greater than US \$1 billion and earn more than 10 per cent of total revenues from clean energy sources. The list excludes all oil and gas companies and utilities that generate less than 50 per cent of their power from renewable sources as well as top 100 coal companies measured by reserves.

'Environment Sustainability' is at the core of Suzlon Group's philosophy with a vision to 'Power a greener tomorrow'. Suzlon is contributing towards mitigating risks of climate change with its clean technologies and ~15.5 MW wind energy installations worldwide. The group headquarters, One Earth, located in Pune, is LEED certified and one of the greenest corporate campuses in the world with a platinum level certification.
