

## **Suzlon commissions turbine generator in T.N.**

NEW DELHI

Renewable solution provider Suzlon Group on Tuesday announced the installation and commissioning of its new product, S128, claiming it to be the largest wind turbine generator (WTG) in India. The first prototype of S128 has been commissioned at the Sanganeri site in Tamil Nadu, the company said in a statement. Testing is under way with the certification expected in the third quarter of calendar year 2018. PTI
