

Suzlon debuts in solar, to set up 210-Mw project

Wind energy major Suzlon Group has marked its debut in the solar power sector by grabbing 210-Mw project in Telangana. It won the projects through a competitive bidding process, called by Southern Power Distribution Company of Telangana. The cumulative 210 Mw consists of six different capacity projects to be located across the state. This includes one project of 100 Mw, one of 50 Mw and four projects of 15 Mw each. **BS REPORTER**
