

# Suzlon holds blood donation drive in Nellai

Tirunelveli, Feb 14:

Suzlon Energy Ltd, a global renewable energy solutions provider announced the completion of Blood donation drive in Tirunelveli district. The drive was held at three locations – Government hospital, Tirunelveli, and at wind farm sites in Devarkulam and Radhapuram. Over 100 people participated in the drive which included Suzlon employees and employees of our partners along with their family members.

The drive was organized nationally across 61 locations in Tamil Nadu, Andhra Pradesh, Telangana, Karnataka, Maharashtra, Gujarat, Madhya Pradesh, Rajasthan, Daman and Pondicherry and had over 1,980 donors participate. Dr. Jasmine Sofia Gogia, Senior General Manager, Suzlon Foundation said,

“We are overwhelmed by the response to our Blood Donation drive. Blood donation helps to save people’s lives all over the world and we are happy to contribute in this noble cause. The annual blood donation drive demonstrates our commitment as an organisation to work towards the betterment of society and helping those in need. The blood donation drive led by the Suzlon Occupational Health team

began 18 years back at Satara and has widened its footprint. Suzlon Foundation endeavors to achieve social, economic and ecological development around all

its areas of operations. Our CSR programs are specifically designed to the requirements of local communities. A healthy community will be a prosperous community.”
