

# Testing, certification of S111 turbine complete: Suzlon

**New Delhi:** Tulsi Tanti-led Suzlon Group on Monday announced the completion of the type testing and certification of its S111 turbine for 50 Hz and 60 Hz variants. "The testing was carried

out by an accredited independent third party testing agency, and the certification was awarded by TÜV NORD," Suzlon said. This certification acknowledges conformity with standards and regulations for the design, testing and manufacturing of S111. It also

meets the Indian Grid Regulations. Suzlon has more than 7,350 MW of installed capacity of the 2.1 MW class turbines globally.
