

Suzlon bags 105 MW turnkey deals

Mumbai, September 23

Wind turbine manufacturer Suzlon today said it has bagged contracts from SMEs and public sector undertakings (PSU) to supply 50 turbines of 2.1 MW each in various parts of the country. Under the contracts, Suzlon will install a total of 50 turbines of 2.1 MW product platform in the key windy states, the company said in a statement. The projects will be located across Andhra Pradesh, Gujarat, Karnataka, Madhya Pradesh and Tamil Nadu. "We continue to have a strong focus on the Indian market as it offers a favourable renewable energy environment. We will leverage our manufacturing facilities across India and continue to partner with our clients to contribute towards renewable energy portfolio," Suzlon Chairman Tulsi Tanti said. PTI
