

■ Suzlon Completes CLP Project Commissioning

NEW DELHI: Wind turbine maker Suzlon Energy on Tuesday said it has completed the commissioning of 100.8 MW wind power turnkey project for CLP India. The project is located at Tejuva, Jaisalmer in Rajasthan. "The project will provide electricity to over 50,000 homes and curb 0.21 mt of CO2 emissions annually. Suzlon will offer operations and maintenance for 20 years through an Integrated Service Package contract," the company said in a statement. Suzlon Group Chief Sales Officer Ishwar Mangal said: "Given the positive change in the Indian renewable energy landscape, our focus this year is to cater to the Indian market and enhance our market share."
