Suzlon Group signs 50 MW order with Orange Renewable Power

- Firm order of 50.4 MW to be commissioned in FY13
- Order for 24 units of the Suzlon S88 – 2.1 MW turbine

Pune: Suzlon Group, the world's fifth* leading and India's largest wind turbine manufacturer, and Orange Renewable Power, an emerging Independent Power Producer (IPP), have agreed for a 50.4 MW wind energy project scheduled for completion in FY 2012-13.

Suzlon will supply 24 units of the S88 – 2.1 MW wind turbine generators totalling 50.4 MW of capacity, install, operate and maintain the wind turbines for this end to end project, in the Jaisalmer district of Rajasthan

Speaking on the order, **Mr Ranjit Gupta, Co-Founder, Orange Renewable Power**, said: "We see wind as a highly viable option with its techno-economic maturity and feel that Suzlon, with its technological expertise and proven market capabilities, is the right partner to achieve our objective to become an organization of excellence that provides best in class projects and services to the emerging renewable energy industry. We plan to develop and operate a portfolio of renewable energy assets, including wind, biomass, small hydro and solar, where each project would be crafted to deliver optimum value to all stakeholders".

Speaking on the order **Mr Rohit Modi, CEO – India and emerging markets, Suzlon Energy Limited**, said: "We are pleased to receive this order from Orange Renewable Power and look forward to partnering with the company in its ambitious plans for the wind energy sector in India. With growing participation and investment from domestic and international IPPs, the segment is already playing a pivotal role in accelerating the development of Indian wind energy market".

The S88 turbine is designed for operations in medium wind regimes with the ability to withstand extreme conditions and operate effectively with lower maintenance costs. The S88 has enjoyed international success, with over 2,400 units installed worldwide, translating to over 5 GW of capacity.

About Orange Renewable Power:

Orange Renewable Power is an emerging IPP promoted by a group of enterprising entrepreneurs and is based out of New Delhi. Orange Renewable Power is actively developing wind projects in India and

Registered Office "Suzlon", 5, Shrimali Society, Navrangpura, Ahmedabad – 380 009, India

abroad. The company is also developing a portfolio of Biomass Power Plants, of which 20MW are under construction in Karnataka. The company endeavours to develop and operate a basket of renewable energy assets including biomass, small hydro, wind and solar.

About Suzlon Group:

The Suzlon Group is ranked as the world's fifth largest* wind turbine supplier, in terms of cumulative installed capacity, at the end of 2011. The company's global spread extends across Asia, Australia, Europe, Africa and North and South America with over 20,000 MW of wind energy capacity installed and operations across 32 countries and a workforce of over 13,000. The Group offers one of the most comprehensive product portfolios – ranging from sub-megawatt on-shore turbines at 600 Kilowatts (KW), to the world's largest commercially-available offshore turbine at 6.15 MW – with a vertically integrated, low-cost, manufacturing base. The Group – headquartered at Suzlon One Earth in Pune, India – comprises Suzlon Energy Limited and its subsidiaries, including REpower Systems SE. Visit us at www.suzlon.com
