## Suzlon wins second Sri Lanka order

- Repeat order from Sri Lankan conglomerate Senok Group
- Order for 10 units of the S88 - 2.1 MW turbine, aggregating to 21 MW
- New order takes Senok's wind portfolio to over 31 MW

Pune: Suzlon Energy Limited (SEL), world's fifth largest\* and India's largest wind turbine manufacturer, won a repeat order from Senok to supply 10 units of Suzlon's S88 - 2.1 MW wind turbine generators, aggregating to 21 MW of wind power capacity. The project will be commissioned in two phases and be completed by May 2012.

Speaking on the order Mr Noel Selvanayagam, President, Senok Group, said: "This new order underlines Senok Group's strategic focus on wind energy. We take pride in being the pioneer in commercial wind power projects in Sri Lanka. We are happy to once again partner with Suzlon for this new project and count on Suzlon's collaborative approach and time tested service capabilities to continue our endeavor towards a greener tomorrow."

Mr Tulsi R. Tanti, Chairman and Managing Director, Suzlon Group, said: "This repeat order underlines Suzlon's strong value proposition - offering expertise and flexible solutions - from concept to commissioning - to meet our customers unique needs across diverse geographies and wind regimes. This island nation has considerable potential for wind, and a great need for power to drive its economic growth. We at Suzlon look forward to building great synergies in partnership with the Senok Group in Sri Lanka."

Suzlon has previously supplied a 10 MW wind project to the Senok Group, the order marked key firsts for Sri Lanka's wind energy sector - as the first project to feature megawatt class turbines, and also the first project by any private developer in the island nation. The new 21 MW project will come up alongside the existing project site in the Puttalm district of Sri Lanka.

Senok Group, is a diversified business conglomerate of Sri Lanka with interests across construction machinery, automotives, infrastructure development, tea, haulage and mining. The Group has an established presence in the clean energy space with its wind portfolio and investments in mini hydro projects.
