For Immediate Release

Suzlon secures 113 MW Australia Order

- Supply agreement for 54 x S88 – 2.1 MW turbines
- AGL places third repeat order

Pune: Suzlon Energy Limited - the world's fifth largest wind turbine maker with 10.5% of global market share* announced today the entering of an agreement between AGL Energy Limited and the company's Australian operations arm – Suzlon Energy Australia Pty Ltd.

The Supply Agreement calls for the delivery of 54 units of Suzlon's S88 - 2.1 MW wind turbine generators (WTGs), translating to 113.4 MW of capacity, into Australia in 2009. The turbines will be used in AGL's pipeline of projects in Australia. This agreement builds on the existing strong relationship between Suzlon and AGL that offers mutual advantages.

Dan Hansen, CEO of Suzlon Energy Australia, said: "We are very pleased to enter into another repeat order with AGL and continue the excellent relationship between our organisations, based on mutual trust, respect and sharing of values. This order is testament to AGL's confidence in Suzlon's product and our local team's expertise and capability to deliver renewable power plant solutions throughout Australia."

AGL Energy is Australia's leading energy provider with over 3.4 million natural gas and electricity accounts, and the only Australian energy producer with a full suite of renewable generation. Listed on the Australian Securities Exchange AGL is an S&P/ASX 50 company with a market capitalisation of about AUS\$5.2 billion. The company's roots go back over 170 years to the Australian Gas Light Company.

This third AGL contract awarded to Suzlon will result in a total of 133 units of S88 - 2.1 MW WTGs installed on AGL wind farms. Previous contracts were for the turnkey delivery of the now fully operational 94.5 MW Hallett Stage-1 wind farm with all 45 WTGs meeting operating expectations, and the 71.4 MW Hallett Stage-2 wind farm currently under construction, both in South Australia.

Commenting on the order, Mr. Sumant Sinha, COO of Suzlon Energy Limited, said: "The order is a clear validation of Suzlon's product, technology and customer focus. This is AGL's third order with Suzlon, supplied with our S88 – 2.1 MW turbine. We are proud to partner with AGL in providing cleaner power and sustainable power solutions, and look forward to an enduring association in the years to come."
