## Suzlon Group to supply 98MW to Mytrah Energy

- Mytrah Energy has awarded Suzlon equipment sale contract for 98MW project in Telangana
- Suzlon will install 47 wind turbine generator (WTGs) of the S97 120m Hybrid Tower with rated capacity of 2.1MW each
- The project will power ~60,000 households and curb ~0.2 million tonnes of CO2 emissions each year

**Mumbai, India:** Suzlon Group, one of the leading wind turbine manufacturers and Mytrah Energy, a leading Independent Power Producer (IPP) today announced that Suzlon will supply 98MW project to Mytrah at Nazeerabad in Ranga Reddy district of Telangana state. It is scheduled for commissioning in 2016. Suzlon's role in the project involves installing and commissioning 47 WTGs of its revolutionary S97 120m Hybrid Tower WTGs with rated capacity of 2.1MW each. The order is part of the Business Partnership Agreement (BPA) signed with Mytrah in May 2010 to purchase 1 GW of turbines from Suzlon Group.

The project is the 3<sup>rd</sup> repeat order awarded by Mytrah to Suzlon Energy. Suzlon has already commissioned 310MW wind energy project for Mytrah so far and 205 MW is under execution in Rajasthan, Maharashtra & Andhra Pradesh.

Speaking on the occasion, **Mr Ravi Kailas, Chairman & CEO, Mytrah Energy Ltd** said, "We are focused in our resolve to harness renewable energy to achieve a clean green world and Suzlon shares our vision. Suzlon's technological edge and execution capabilities are un-paralleled and hence they have been our partner of choice for over five years. This project is one of 300MW that we are currently constructing and will take our capacity past 840 MW in 2016".

**Mr Tulsii Tanti, Chairman, Suzlon Group** said, "Suzlon is pleased to once again partner with Mytrah and provide customer centric wind energy solutions. We are together committed to provide affordable and sustainable energy for all and aim to play a pivotal role in India's energy security. The new order underscores our customer's immense faith in our product and service reliability.

Indian renewable sector is witnessing the positive winds of change and Suzlon will continue to be the catalyst of wind energy in India. Suzlon Group is extremely well positioned to drive growth in this

sector and we will continue to focus our R &D efforts to bring down the cost of energy. Our robust order book, positive business outlook and conducive policy framework in India gives us immense confidence to deliver on our goals. ”

The S97 120m is World’s tallest Hybrid Tower designed to harness the wind energy across low wind sites. It is a combination of lattice and tubular structure which ensures higher yield and increased power output of 12-14% over at 90 meter tower.

With over 18 years of market leadership, right technology, proven project execution capabilities and best in class services, Suzlon is best positioned to tap the high growth potential and opportunities in India and other emerging markets.

**About Suzlon Group:**

The Suzlon Group is a leading wind turbine manufacturer in India having a global presence with spread extending across Asia, Australia, Europe, Africa and North and South America. With over two decades of operating history, the group has a cumulative installations of over 14 GW of wind energy capacity, operations across over 17 countries, a workforce of over 6,900, a vertically integrated, low-cost India based manufacturing base and strong in house R&D set up in Germany, Netherlands, Denmark and India. Suzlon has over 8600 MW of cumulative installations in India which is the largest in the country. The Group – headquartered at Suzlon One Earth in Pune, India – comprises Suzlon Energy Limited and its subsidiaries. Visit us at [www.suzlon.com](http://www.suzlon.com)

**About Mytrah Energy Ltd:**

Mytrah Energy (India) Limited (MEIL) is one of the largest Independent Power Producers in India. MEIL is a wholly owned subsidiary of Mytrah Energy Limited (MEL), based in London. MEL is listed on AIM, a secondary market of London Stock Exchange. The company is awarded as one of the top 3 innovative companies in the world by PWC. Currently, the company has an operating portfolio of over 543 MW across six states in the country – Andhra Pradesh, Tamil Nadu Karnataka, Maharashtra, Gujarat and Rajasthan.
