

Girish Tanti

Co-founder and Vice Chairman
Suzlon Group

Girish Tanti is the Vice Chairman and founding member of Suzlon Energy Limited. He is an engineer with a Master of Business Administration from the United Kingdom.

Over his twenty-seven years of global renewables business experience, he has lived and worked across Europe, the United States, and Asia. As co-founder of Suzlon, he incubated the renewable energy business in 1995, led the establishment of technology development centres in Europe and India, set-up the global supply chain, and developed wind markets across India, the United States, Canada, Europe, China, Australia, South America, and South Africa. His efforts have been vital to Suzlon's rise to becoming the only renewable energy player from a developing nation to rank among the top five worldwide in the early 2000s. He is also the founding member of the Suzlon Foundation, which has grown to become a leading grass root rural development foundation in India.

Mr. Tanti champions the industry in India and across the world as the Vice Chairman on the Board of Global Wind Energy Council (GWEC), Chairman of Global Supply Chain Forum for Manufacturers of GWEC, Chairman of GWEC India, Co-Chair of National Committee on Renewable Energy of Confederation of Indian Industry (CII) and Chairman Indian Wind Turbine Manufacturers Association (IWTMA). He is also actively engaged with various global forums on Climate Change and Energy Transition.

Committed to enabling the global Energy Transition journey, Girish Tanti is highly passionate about creating an equitable and sustainable world for future generations.
