Encl.: As above.
Suzlon Group Wins Repeat Order of 100.8 MW from Orange Renewable

- Suzlon Group awarded repeat turnkey order of 100.8 MW from Orange Renewable
- Installation of 48 WTGs of S111 90m with rated capacity of 2.1 MW each
- Also to offer operation and maintenance service for an initial period of 12 years through an Integrated Service Package

6th October 2015 India: Suzlon Group, one of the leading wind turbine manufacturers, has won a repeat turnkey order from Orange Renewable, an Independent Power Producer (IPP) for 100.8 MW to be installed in Beluguppa, Andhra Pradesh, India. Suzlon will offer operation and maintenance service for an initial period of 12 years through an Integrated Service Package. This repeat order reaffirms customer's faith in Suzlon's product portfolio and service capabilities.

The project will be commissioned starting FY2016-17.

Mr. Sudhir Nunes, Chief Executive Officer, Orange Renewable said, “This is our second project with Suzlon and demonstrates our belief in Suzlon as a technology partner. With our strong wind resource and technology differentiation, this 100.8 MW project adds substantial value to our growing portfolio and further expands our geographical presence to southern India states. It reinstates our focus to deliver optimal energy solutions to the country.”

Mr. Ishwar Mangal, Chief Sales Officer, Suzlon Group said, “We are pleased to receive this repeat order from Orange Renewable which demonstrates our strength in being the partner of choice for leading Independent Power Producers. With increasing demand from domestic and international IPPs, the wind energy sector has gained a pivotal role in bolstering the development of India’s energy landscape.

S111, our latest product offering has been designed to optimally harness available wind resources, delivering nearly 20% higher energy as compared to S97, ensuring higher ROI to customers. Suzlon endeavors to lower the cost of energy and provide clean and affordable energy for all. We are encouraged by the response we are getting from the customers on the product.”

The wind park comprises of 48 WTGs (Wind Turbine Generators) of Suzlon’s robust S111 90m 2.1 MW wind turbines featuring the time tested Doubly Fed Induction Generator (DFIG) technology. The S111 which belongs to the reliable and proven 2.1 MW product suite is designed to harness sub optimal wind resources. This innovative product features a rotor diameter of 111.8 meters with a swept area of more than 9500 square meters, making it one of the best wind turbines in its class.
About Orange Renewable:

Headquartered in New Delhi, Orange Renewable is a developer and operator of renewable energy projects. A 100% subsidiary of AT Holdings Pte Ltd, Singapore, Orange Renewable is focused on developing, constructing and operating renewable energy projects in the field of wind and solar across India with presence in Andhra Pradesh, Karnataka, Madhya Pradesh, Maharashtra and Rajasthan.

About Suzlon Group:

The Suzlon Group is a leading wind turbine manufacturer in India having a global presence extending across Asia, Australia, Europe, Africa and North and South America. With over two decades of operating history, the Group has cumulative installations of over 14 GW of wind energy capacity, operations across 19 countries, a workforce of over 7000 and a vertically integrated, low-cost manufacturing base and strong in-house R&D set up in Germany, Netherlands, Denmark and India. Suzlon has over 8600 MW of cumulative installations in India which is the largest in the country. The Group – headquartered at Suzlon One Earth in Pune, India – comprises Suzlon Energy Limited and its subsidiaries. www.suzlon.com
