ReNew Power issues 132 MW repeat turnkey order to Suzlon

- Order for 48 units of S97 120m Hybrid Tower and 15 units of S97 90m tubular tower with a rated capacity of 2.1 MW each
- Project to be commissioned in Andhra Pradesh by March 2017
- Project will provide power to over 70,000 households and offset 0.28 million tonnes CO₂ emissions annually

Pune, India: ReNew Power Ventures Ltd, India’s leading renewable energy Independent Power Producer today issued an order to Suzlon Group, one of the leading renewable energy solutions providers in the world. The order comprises of Suzlon’s latest product offerings and includes S97 90m tubular tower and S97 120m Hybrid Tower with a rated capacity of 2.1 MW each. The project is capable of providing power to over 70,000 households and reducing 0.28 million tonnes of CO₂ emissions per annum.

Suzlon will provide a comprehensive range of services and dedicated life cycle asset management services for an initial period of 12 years. The project will be located in two sites, Elutalia and Veerbhadra sites in the Ananthpur district of Andhra Pradesh and is scheduled to be completed by March 2017. With this order, Suzlon’s portfolio with ReNew Power would exceed 500 MW (510.30 MW) spanning across the states of Gujarat, Rajasthan, Maharashtra, Madhya Pradesh and Andhra Pradesh. ReNew Power has 220 MW of wind projects in pipeline in Andhra Pradesh. Renew Power is one of the leading customers of Suzlon.

Sumant Sinha, Chairman and CEO, ReNew Power said, “ReNew Power continues to grow at a rapid but sustainable rate, expanding its footprint across India. In this direction, we are glad to partner with Suzlon for our wind power projects in Andhra Pradesh. The thrust towards renewable energy is an important step taken by the government and we are happy to play a key role in leading this transformational change in the country’s energy sector.”

J.P. Chalasani, Group CEO, Suzlon Group said, “The order win reiterates our role as the country’s leading renewable energy solution provider. We are pleased to partner with ReNew Power yet again in contributing towards India’s energy security. With our strong customer base, customer centric credentials, next generation products, end-to-end solutions and best-in-class services, Suzlon is best equipped to capitalize on the growing opportunities in India.”

The innovative S9X series product portfolio is designed to optimally harness the available wind resources and deliver higher energy and return on investment (ROI) to customers. The S97 2.1 MW wind turbine generator (WTG) features the time tested Doubly Fed Induction Generator (DFIG) technology which is designed to maximise generation and unlock low wind sites.
The S97 120m is one of the tallest all-steel hybrid tower (120 meter height) in the world and combines both lattice and tubular structures. The S97 120m prototype, set up in November 2014, at Kutch, Gujarat, achieved a plant load factor (PLF) of 35% over the first 12 months of operation. As on March 2016, S97 120m and S97 90m have installations of 281.40 MW and 1035.30 MW respectively.

**About ReNew Power Ventures Pvt. Ltd.**

ReNew Power Ventures Pvt. Ltd, an Independent Power Producer (IPP) company, is committed to leading change in the country’s current energy portfolio by delivering cleaner and smarter energy choices and thereby reducing India’s carbon footprint. ReNew Power’s mission is to play a pivotal role in meeting India’s growing energy needs in an efficient, sustainable and socially responsible manner. The company creates value through reliable and efficient generation of non-conventional power through innovation in solar and wind power solutions. ReNew Power has more than 1,200 MW of commissioned and 1,800 MW of under-construction clean energy capacity across nine states in India (Maharashtra, Rajasthan, Karnataka, Gujarat, Madhya Pradesh, Haryana, Jharkhand Telangana, and Andhra Pradesh). **About Suzlon Group:**

The Suzlon Group is one of the leading renewable energy solutions providers in the world with an international presence across 19 countries in Asia, Australia, Europe, Africa and North and South America. With over two decades of operational track record, the Group has a cumulative installation of approximately 15.5 GW of wind energy capacity, over 7,500 employees with diverse nationalities and world-class manufacturing facilities. Suzlon is the only Indian wind energy company with a large in-house Research and Development (R&D) set-up in Germany, the Netherlands, Denmark and India. Approximately 9.50 GW of the Group’s installation is in India, which makes up for ~36% of the country’s wind installations, making Suzlon the largest player in this sector. The company has recently forayed into the solar space. The Group, headquartered at Suzlon One Earth in Pune, India, is comprised of Suzlon Energy Limited and its subsidiaries.
