
Suzlon Group

- The Suzlon Group is one of the leading renewable energy solutions providers in the world with presence in 17 countries.
- Suzlon has a strong presence across the entire wind value chain with a comprehensive range of services which include wind resource assessment, design, supply, site procurement and development, installation, commissioning of the project and dedicated life cycle asset management services
- The Group has a cumulative global installation of 21.7+ GW* of wind energy capacity, of which over 15.7 GW is in India alone, making it a market leader in the country. (~28% of total installed base in the country)

**Global installations of Suzlon manufactured wind turbine generators. Data as of 31st March 2026*

Suzlon boasts of a wide product range within 2.1 MW to 3.15 MW suite of products with varying rotor diameters and tower heights suitable for all wind regimes and products for integration various renewable energy sources.

S120 WTG

- The S120 – 140m (140 meter hub height) variant with lattice-tubular tower was commissioned in December 2018. In addition a 120m hub height tubular tower variant was commissioned in January 2019. This product range enables us to reach untapped wind sites in challenging terrains.
- The S120 - 140m (140 meter hub height) serial fleet turbines demonstrate high performance standards and is operating with above 98% availability.
- In Sept of 2025 a high temperature version was certified. This variant complements a number of features to fulfill today's and future extreme temperature conditions.

2.6 to 3.15 MW Platform:

Suzlon introduced the 2.6 to 3.15 MW platform to unlock unviable sites and deliver improved energy yield suitable for all wind regimes

- The S133 and S144 are among the largest wind turbine generator (WTG) operating in India. This platform is extendable up to 3.15MW depending on the site wind conditions and is operating since August 2019. These products are available in 2.6 MW to 3.15 MW variants and offers hub heights up to 160 meters. It delivers 25-30% higher generation over the S120.
- The S133 with a 160 meter tower is commercially operating successfully since June 2022. The product range is validated and certified according to latest India Grid Code requirements.

- In 2022 a larger rotor of 144m was added to the portfolio and the S144 prototype is operating at 3.15 MW in the south of India for testing and measurements since December 2022. The further increased performance (+10% over S133) was successfully validated and certified in August 2023.
- In December 2023 a hybrid lattice tower variant with 160m hub height was installed, certified and is operating successfully.
- In beginning of 2025 a high temperature version was certified. This variant fulfils today's and future extreme temperature conditions.
- The growing fleet of the 3MW re-confirms the performance and robustness seen in the initial launch turbines.

Integration of renewable energy sources

Based on proven wind park controller (PPC) technology hybrid park controller units have been developed and tested to ensure grid integration in challenging environments.

Advanced control and monitoring features have been introduced to comply with latest grid codes.

Other Updates

- Suzlon is credited with developing one of Asia's largest wind farms in the western Indian states of Rajasthan and Gujarat. The Jaisalmer wind farm has over 1.6 GW of installed capacity and Kutch wind farm has over 1.5 GW of installed capacity.
- Suzlon has its research and development centres for Wind energy in Germany, Denmark, The Netherlands and India.
- SE Forge, a wholly-owned subsidiary of Suzlon group, incorporated in 2006, has an un-machined casting capacity of 1,20,000 metric tonnes per annum, machining capacity of 55,000 metric tonnes per annum and forging capacity of 42,000 rings per annum.
- Suzlon Global Services Limited (SGSL), a wholly-owned subsidiary of Suzlon Group. The Group is the custodian of ~15 GW of wind energy assets under service in India making it the largest Operations and Maintenance Company in the Indian renewable energy sector. The Group also has ~6 GW of installed capacity outside India.
- Suzlon has a human capital over 8,500 employees with a diverse geographical and talent spread
- The Group is headquartered at Suzlon 'One Earth' campus in Pune, India. A LEED Platinum and GRIHA 5-star certified building; One Earth is one of the greenest corporate campuses in the world

Board of Directors and Management Team**

Top Leadership	
Mr. Tulsi Tanti	Founder, Late Chairman and Managing Director
Mr. Vinod Tanti	Chairman and Managing Director, Suzlon Group
Mr. Girish R.Tanti	Executive Vice Chairman, Suzlon Group
Mr. JP Chalasani	Group Executive Council Member, Suzlon Group
Mr. Kirti J. Vagadia	Group Executive Council Member, Suzlon Group
Mr. Rahul Jain	Chief Financial Officer, Suzlon Group
Mr. Ajay Kapur	Chief Executive Officer, Suzlon Group
Mr. Bernhard Telgmann	Chief Technology Officer, Suzlon Group

Board of Directors	
Mr. Vinod R Tanti	Chairman and Managing Director
Mr. Girish R Tanti	Executive Vice Chairman
Mr. Sameer Shah	Independent Director
Ms. Seemantinee S Khot	Independent Director
Mr. Pranav Tanti	Non-Executive Director
Mr. Girish Vanvari	Independent Director

Executive Group:	
Mr. JP Chalasani	Group Executive Council Member, Suzlon Group
Mr. Vinod R Tanti	Chairman and Managing Director

25

Key statistics of Suzlon Group as of 31st March 2026 are as under:

- **Total MW installed (cumulative):** 21,700+ MW
- **Total Nos. of WTG** : 10,000+ Nos.
- **Average Turbine Size** : 1.62 MW
- **Product (Size Range)** :

Product Size (Range)		% of total MW installed
Small WTGs	< 750 kW	3.57%
Megawatt	< 750 – 1500 kW	31.22%
Mainstream	< 1501 – 2500 kW	65.22%

- **Total No of Countries (presence) :** 17
- **Continental Spread:**
 1. Asia (16,700+ MW)
 2. North America (2,779.35 MW)
 3. South America (806.40 MW)
 4. Australia (764.40 MW)
 5. Europe (510.30 MW)
 6. Africa (138.60 MW)
- **Order Book Position, as of 31st March 2026 plus order received in May 2026:**

^AOrder book as on 31st Mar 2026 plus orders received post Mar'26 | EPC scope may differ from contract to contract | Note: Mix based on 5,892 MW

EPC contribution increased to 28%, enhancing competitiveness and supporting order book growth

Suzlon Foundation

Suzlon Group implements CSR activities through Suzlon Foundation, a non-profit company. Suzlon Foundation has completed 15 years, and its CSR programs operate across 800 villages in eight states and one Union Territory of Daman. Active community participation and sizable contribution in kind and cash indicate that CSR programs create shared value. It is a partnership in development, with all stakeholders making their own contributions to enhance natural, financial, social, human and physical resources. The Foundation has a multi-pronged approach: Transformative (working with internal stakeholders), Responsive (working with neighbourhood communities to offset our footprint) and Proactive (working for overall sustainability of the planet). Suzlon Foundation also collaborates with Suzlon's customers and other organizations to create greater impact in Suzlon's neighbourhood villages.

About The Suzlon Group

The Suzlon Group is a leading global renewable energy solutions provider, with 21.7 GW* of wind energy capacity installed across 17 countries. Headquartered at Suzlon One Earth in Pune, India, the Group includes Suzlon Energy Limited (NSE: SUZLON, BSE: 532667) and its subsidiaries. A vertically integrated organisation, Suzlon has in-house R&D centres in Germany, the Netherlands, Denmark, and India, and world-class manufacturing facilities across India. With over 30 years of operational excellence and a diverse workforce of 8,500+ employees, Suzlon is India's No. 1 Renewable Energy Solutions company, having an installed base of over 15.7 GW of assets and an additional ~6 GW installed outside India. Its portfolio includes the advanced 2.x - 6.x MW series of wind turbines.
