

GIRISH TANTI

Co-Founder, Suzlon Group

Girish Tanti is the founding member of Suzlon Energy Limited. He is an engineer with an MBA from the UK.

In his nearly three-decade experience in the global renewables business, he has lived and worked across Europe, the USA, and Asia. As Suzlon's Co-founder, he incubated the renewable energy business in 1995, led the establishment of technology development centres in Europe and India, set up a global supply chain and developed wind markets across India, the USA, Canada, Europe, China, Australia, South America, and South Africa. His efforts have been vital to Suzlon's rise to become the only renewable energy player from a developing nation to rank among the top five worldwide in the early 2000s. He is also the founding member of Suzlon Foundation, which has grown to become a leading grassroots rural development foundation in India.

Mr. Tanti champions the industry in India to drive policy reform and holds the following positions :

- Chairman – Indian Wind Turbine Manufacturers Association (IWTMA)
- Chairman – National Committee on Renewable Energy - Confederation of Indian Industry (CII)
- Chairman – Renewable Energy Manufacturing Council - Confederation of Indian Industry (CII)
- Vice Chairman – Global Wind Energy Council (GWEC)
- Chairman – GWEC India
- Chairman – Global Supply Chain Forum for Manufacturers - Global Wind Energy Council (GWEC)
- Member – India-Canada CEO Forum
- Member- Electricity Council, World Economic Forum

Committed to enabling the World's Energy Transition journey, Girish Tanti is highly passionate about creating an equitable and sustainable world for future generations.
